

# Do you know how to use a condom?

Yes? Maybe? No?

## Steps:

1. Store in a cool dry place (NOT in your wallet).
2. Check expiration date on wrapper.
3. Check to see if you can feel a pocket of air before opening wrapper
4. Open the wrapper carefully (do not use your teeth for risk of ripping the condom).
5. If you are not circumsized roll back the foreskin before putting on the condom.
6. Make sure you roll down condom the right way and not inside out
7. First pinch the tip of the condom to remove air then while holding the tip roll down the condom all the way to the base of the penis
8. After ejaculation withdraw while holding the base of the condom with a firm grip.
9. Make sure there are no tears in the condom.
10. Tie a knot in the condom and dispose of it in the garbage. Don't flush it down the toilet.

# BE SAFE!
